

NZ FARMERS

LIVESTOCK

IN MILK HERD DISPERSAL

On A/c R & D Brown

14th October 2022 12:00pm

Stratford Saleyards

140 Quality XBD & J/X in milk cows

Herd BW 202 PW 229, BWs up to 351 and PWs up to 560, Lepto vaccinated, C10 TB Status.

Cows will be in milk on sale day and will come forward in sound health & good condition.

79% of the herd is 5 years & younger.

Vendors are exiting the industry so this is an opportunity to purchase genuine, honest, hard working cows.

Farmed traditionally on system 1.5 with grass & silage only.

These cows will shift and fit into most systems.
