YOUR SUCCESSFUL CALVING RELIES ON YOUR FARM MANAGEMENT,
YOUR HERD'S GENETICS & USING EZICALVE'S PURPOSE BRED BULLS.

Look for these points in your catalogue! No other Beef Bulls will do a better job!

"This Bull Wears The Brand"

Use the August 2022 Hereford Breedplan Percentile Band located at the back of the catalogue to understand a lot's EBV percentage rankings in more detail.

Positive Calving Ease EBVs are best and the higher the EBV the better. A Calving Ease EBV of +9.0 is the top 10% of the breed.

Lower (more negative) Gestation Length EBVs are best. A Gestation Length EBV of -3.0 is the top 10% of the breed.

Lower Birth Weight EBVs are best. A BW ebv of +1.1 is the top 10% of the breed and are bulls best suited for heifers.

Homozygous polled

Ezicalve Index
\$127

Purchaser Price \$

Homozygous Polled have no recessive horn genes, none of their progeny will need dehorning.

(COM) means it's not Herdbook registered - can not be transferred for stud use. Otherwise no difference in the quality of the bull.

The ezi symbol denotes bulls who have qualified for Ezicalve's elite heifer calving status. They have at least 3 generations of Top Calving Ease EBVs throughout their pedigree.

The Ezicalve index is made specifically for dairy heifer mating, estimating the genetic differences between animals and expressed as \$ per dairy heifer mated. The beef heifer index values are higher because it also values the replacement heifer progeny. Both of these indexes are heavily weighted for low birth weight and high calving ease.

Status Criteria

Bull EBVs

Calving Ease Direct > +8.4

Birthweight < +1.0 kg

Gestation Length < 0

Both Sire and Dam

Calving Ease > +6.2

BW < +2.0 kg

Check out the percentile table on back page to see where these rank across all Herefords

If you purchase an Ezicalve bull you will have...

- Assurance of the safety, health status and temperament of your bulls.
- Confidence in a beef bull breeding program that continues to be focused on calving ease, low birth weight and high performance.
- Less stress for you, your heifers and your cows.
- High demand for your Ezicalve sired calves. Just tell the market that they are sired by "Ezicalve"!

Own Hereford bulls bred for many generations specifically for heifer mating and the dairy industry. A rigorous herd and individual bull criteria mean that Ezicalve ranks as New Zealand's best choice.

Welcome to this year's sale catalogue of bulls.

Most farming sectors are looking at the season ahead with some optimism following a tough previous 12 months for everyone.

The very solid beef schedule is welcome and should continue to be underpinned with a shortage of animals not only in overseas herds but also within New Zealand. It is good to see cattle making a significant contribution to both dairy and sheep farmers' incomes. With a \$7 bull schedule, the end value of a 400 kgcw bull is quite significant, certainly better than the dog tucker value of a ram that also comes with a job getting it in the freezer!

Following the dry autumn many farms are understocked throughout the North Island and combined with the poor returns making sheep farming even less fun, the swing towards cattle should underpin solid demand for well-bred dairy beef stock.

We aim to breed bulls that enable you to capture this value, with calves that are born easily, grow quickly and are readily marketable.

Our genomic work identifying homozygous polled bulls and our short gestation focus, help to remove costs and add additional value. And just as important is making sure our bulls and their progeny are enjoyable to handle.

The bulls like us have enjoyed a mild winter with dry conditions underfoot and are already cleaning up in their coats. We are well behind on rainfall so I expect they will get a reminder at some stage that there is still some winter to come.

We are always excited seeing the next generation of progeny from new sires, and once again we are starting the sale with the

bulls out of our heifers. We are encouraged with the progeny of our breeding focus of incorporating short gestation genetics and identifying homozygous polled genes.

Most of the catalogued bulls have been genomic tested identifying bulls that are homozygous polled. These bulls have no recessive horn genes, and they will remove all the horns and therefore the requirement to dehorn their progeny. The heterozygous bulls, whilst polled themselves, will have some recessive horn genes in the background which may throw horns in a minority of their calves.

We enjoy looking at how our breeding objectives can meet future demands, both on clients' farms and in the wider industry. Our primary focus is still on low birthweight and ease of calving, this is well entrenched in our herd, and we realise nothing else will add value if we compromise this.

The sale will again run as a hybrid auction hosted on BIDR, the sale being livestreamed with a video link and online bidding. There will be plenty of photos of individual sale bulls on the BIDR link: <https://bidr.co.nz/auction/3665>

The bulls are catalogued in their management mobs, when the lot numbers appear in a black box this indicates a new mob.

We appreciate the loyalty of our clients and always look forward to hosting you on sale day. Please give us a ring if you want to discuss your bull requirements or if you have any concerns.

Mike and Cath Cranstone (and family)
Ph 027 2180123

This sale will be hosted by bidr® (bidr.co.nz) as a HYBRID ON-FARM auction, with online bidding and a live-stream available for online purchasers.

All intending online purchasers must register with bidr® using an account held with one of the bidr® partner agencies in advance of the sale date.

The bidr® team is available to assist intending purchasers with signing up and registering – please call 0800 TO BIDR (0800 86 2437), or email enquiries@bidr.co.nz for assistance at any point.

Alternatively, contact your local bidr® representative:

Ezicalve - A program of performance!

Ezicalve bulls provide the opportunity to add value at each stage of the dairy-beef production chain - from the dairy farm, to the calf-rearer, to the grower, to the eating experience provided by our beef. Our Ezicalve genetics aim to provide the calving ease of Jerseys, the growth rates and carcass yields that enables profitable finishing before 18 months and beef quality that wins NZ's 'Steak of Origin'. Ezicalve have invested in leading science, technology and progressive relationships to ensure that this is a reality!

Farm and Herd Management:

Our fully performance recorded 650 cow Hereford herd must perform in an intensive operation alongside a large breeding ewe flock. All heifers are calved as 2 year-olds and must rear a good calf every year to stay in the herd.

All females including our first calving heifers now calve on our hill country, with our flats used for growing bulls and finishing stock. The ability to do this is a testament to our focus on important traits such as calving ease, quiet temperament and robust constitution. All calves are still weighed and tagged at birth, with cattle managed behind electric fences. We enjoy pushing the boundaries, whether it is with our farm management or our stud's breeding objectives.

Riverton Herefords is one of only four NZ Hereford Association "Herds of Excellence".

Health Protocol:

Riverton Ezicalve Herefords implements an 'industry best-practice', whole farm, animal health program. This is recommended and documented by the Wanganui Vet Services. For sale bulls, this includes:

- TB - Herd status C10
- BVD – All bulls have been blood tested BVD antigen negative and have been vaccinated with Hibrabovis. To maintain each bull's BVD vaccination status, all bulls will require an annual Hibrabovis booster each September.
- IBR - all bulls are vaccinated for IBR (with Hibrabovis).
- 10-in-1 - all bulls have received a 10-in-1 vaccination to cover clostridial diseases. The bulls have also been vaccinated for Leptospirosis. Annual boosters are recommended.

Health and Safety:

- Take care crossing the road.
- All electric fences are on.
- Treat the bulls quietly and with attention.
- Children are welcome, but please be responsible for them.
- If it is wet, be careful not to slip and fall.
- Ask any of our team for assistance if required.

Semen Rights:

M&C Cranstone Ltd retains the semen rights to all male animals with the Riverton prefix. Transferred registered bulls may have semen collected for the owner's use. This semen cannot be sold, transferred or given away. A registered bull may have up to five owners at one time. If the owner/s wish to collect and sell semen, they can purchase the semen rights in a separate contract with the bull's breeders, M&C Cranstone Ltd.

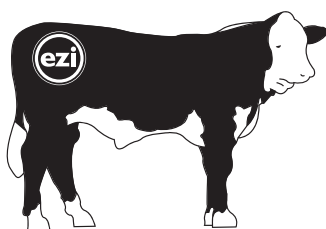

Carcass Performance Recording

The majority of the yearling sale bulls have been ultra-sound carcass scanned and have carcass EBVs. Due to the timing of this, these are unable to be published in this catalogue, however, all are available on request prior to sale day and can be viewed in our online catalogue.

www.herefords.co.nz

On-line Catalogue and Information

Full performance and pedigree information for all Riverton cattle can be accessed online at www.herefords.co.nz, EBV enquires, searching with the Riverton prefix.

**Please clean your boots
before coming to the sale.**

No to Mycoplasma bovis!

**Riverton Herefords is a closed beef
breeding herd.**

**We have purchased no breeding or
trading stock for over 8 years.**

**No bulls have been leased and any
backup loan bulls have been sent direct
to slaughter.**

**Sire bulls only purchased from Closed
Beef breeding herds**

FMG Premier Bull Sale Insurance

What is FMG Premier Bull Insurance?

FMG provides automatic insurance for all bulls auctioned at an FMG Premier Bull Sale up to the value of \$50,000 for 14 days at no cost to the purchaser. For any bull purchased over \$50,000 talk to an FMG representative.

What is the length of cover?

You will automatically be insured for the specified bull for 14 days. You also have the option to extend the length of insurance to 12 months. Simply tick the “Extend your Premier Bull Insurance” option on the Purchaser Slip. The specified bull is then insured for the remaining period of 12 months at **7.6%** of the purchase price (the sum insured for the bull). If you would like to discuss an alternative timeframe, please have a chat with your local FMG representative.

You don't have to pay today, FMG will invoice you for this additional cover.

What are the benefits?

✓ Infertility

Cover if your specified bull has to be euthanised due to permanent infertility caused by certain accidents, disease, or illness.

✓ Theft or death

We cover your specified bull for theft or death caused by certain accidents, disease, injury, or illness (including while in transit anywhere in New Zealand).

✓ Vet costs

We cover up to \$500 for treatment of your specified bull to prevent death.

What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.

Bull Purchaser Instruction and FMG Insurance Slip

Please complete this slip and hand to the Booking Clerk before leaving the sale. This slip **MUST** be fully completed to be eligible for the 14 days free Premier Bull Insurance.

Purchaser/Agent full name: _____ If purchasing on behalf of, what is your relationship to owner? _____ Buyer No: _____

FMG Client Account Number: _____ Purchaser's full name: _____ Purchaser's DOB: ____ / ____ / ____

Purchaser's email: _____ Purchaser's phone: _____ Farm/business name: _____

Purchaser's postal address: _____ Post code: _____ NAIT No.: _____

Delivery address: _____ Stock firm to be charged: _____

Lot:	Tag:	\$	Breed:	DOB:	Transport instructions:

Period of FMG Insurance Tick here to extend your Bull Insurance to 12 months @ 7.6% of the purchase price of your bull. This will extend the cover beyond the initial 14 days free cover for the remaining period of 12 months.

If you do not wish to be contacted by FMG in the future to discuss other products and services please tick here:

I acknowledge and agree for my personal information contained in this Purchaser Instruction and Insurance Slip to be shared between the parties involved in this bull sale, including but not limited to the vendor or their representatives, livestock agencies, transport operators and FMG. The information is shared for the purpose of completing the sale and purchase of the bull, including insurance with FMG.

NO VERBAL INSTRUCTIONS WILL BE ACCEPTED

Signature of Purchaser or Agent: _____ Date: ____ / ____ / ____

Disclaimer
Please note this is only a summary of the product and is subject to our specific product documentation. For full details, you should refer to the policy document. You can get these documents, and any other information you need, from your FMG representative, by calling us or visiting, fmg.co.nz/livestockpolicy

BULL-PROOF

YOUR ASSETS AGAINST RURAL THEFT.

Theft and burglaries occur more often than you might think, and the number of theft claims is increasing.

Over the last five years we have paid \$48 million in theft claims – including \$620k in fuel claims alone, that's doubled since 2019 and equates to over 300,000 litres!*

We have teamed up with NZ Police to create a Rural Crime Prevention Guide to help prevent theft and burglaries at your rural property – find out more at fmg.co.nz/rural-theft

We're here for the good of the country.

*FMG Data 2019 to 2023

Working with Farmers for Farmers

NZFL Bull Plan

Short Term loan facility for purchasing breeding bulls

Criteria

- Client must be an existing NZFL client with a good credit history.
- All previous Bull Plan debits to be repaid before new seasons debits.
- If purchasing on Bull Plan for the first time, security and loan documents must be signed, returned and facility confirmed before bulls can be purchased.

Procedure

- For previous Bull Plan users, facility terms posted to borrower to confirm use and same option as previously used.

Bulls purchased and financed by a one off \$60/bull + GST or the current interest rate. Administration fee invoiced by NZFL at bull purchase date, bulls sold back through NZFL and credited to facility. Any debt at end of term paid by borrower, credit paid to borrower.

- Term to 120 days or 31st January (whichever is soonest).
- Client receives monthly Bull Plan statement and can repay as much or as little as they choose.
- When bulls sold through NZFL, proceeds are automatically credited to Bull Plan facility.

For further information contact:

Add value to your Dairy operation use Ezicalve Bulls

Ezicalve Bulls are:

- ⓔzi Quality Assured
- ⓔzi Guaranteed Quiet
- ⓔzi Full health-tested and vaccinated
- ⓔzi Backed with full support and bull back-up

Ezicalve Bulls will:

- ⓔzi Breed marketable calves that are in demand
- ⓔzi Deliver what their Breeding Values (EBVs) say
- ⓔzi Behave well for you and your staff
- ⓔzi Stay sound and last for years
- ⓔzi Have a high resale value

The forecast for Beef in 2024 and beyond is strong. By using Ezicalve bulls you will breed calves with more market options and will add income to your dairy operation. Using Ezicalve bulls will also mitigate the risks of calving problems, bull health issues and staff safety concerns.

***Ezicalve – no other beef bulls will do a better job.
The choice is ezi!***
