6% Rebate Commission paid to all non-participating companies introducing buyers to the sale. Please see full details on the Purchasing Rebate on the proceeding page.

CONDITIONS OF SALE

All stock are sold subject to the terms and conditions of the Taranaki Stock & Station Association.

TRANSFERS – All transfers must be registered within 30 days from the date of the sale (except in the case of the Angus Association in which you must register transfers within 90 days) otherwise charges may be incurred. Purchasers are responsible for transfer fees except in the case of export cattle.

FERTILITY GUARANTEE – The entry of a bull over the age of 12 months in this catalogue ipso facto carries with it an undertaking by the vendor that the purchase price (without interest, expenses, costs or damage) will be refunded or the bull replaced with an animal of similar quality should the bull prove totally infertile or incapable of service. Any complaints must be lodged with the Auctioneers within six calendar months of the date of the sale. A veterinary certificate shall be procured by the purchaser when required. If the bull so entered should not possess reasonable fertility although not totally infertile, any dispute shall be settled by an arbitrator appointed by the President of the Association and the Auctioneers. The award of such arbitration shall be accepted as final and binding by the parties to the dispute.

Each lot will be at the risk of the vendor until the fall of the hammer, after which shall be the responsibility of the Purchaser.

Before any stock is removed from the sale venue a Delivery Order must be filled out and handed to the stock clerk.

ALL BULLS ARE FROM BRUCELLOSIS AND TB ACCREDITED HERDS.

Although every care has been taken to ensure the accuracy of the contents of this catalogue, no responsibility is accepted for any error or omission that may be contained herein.

DISCLAIMER: The BREEDPLAN Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither Hereford NZ, Angus NZ nor ABRI oversee or audit the collection of this data.

Lot 1 has a semen claimer for semen retained for in herd use.

PURCHASING REBATE

All intending purchasers are required to register at the sales office prior to the sale.

A purchasing rebate of 6% will then be paid to non-participating livestock companies and recognized independent livestock agents with approved credit facilities introducing and/or accompanying buyers to the sale.

ARRANGEMENTS MUST BE MADE PRIOR TO THE SALE AND SETTLEMENT MADE ON THE PURCHASER'S BEHALF WITHIN 14 DAYS.

HEREFORD BULL SALE

20 - 2 YR HEREFORD BULLS

Janelle and Lance would like to welcome you all to our 8th annual on farm bull sale.

Tawanui farms has had some major changes in the past 4 years, mostly due to land increase and pushing our calving date back a wee bit to line up with our grass growth. Our 2025 year will see us calving down 850 MA cows, 500 commercial angus and 350 Herefords with 100 of those Herefords being registered Stud. The increase in herd size has enabled us to dabble in a bit more AI as well as enabling us the opportunity to use more of our own home bred progeny which you will see in this year's sale line up. It's important for us to be backing our own progeny and seeing our own blood breed on and perform first hand.

This year's summer drought caused a few headaches in Taranaki but in true Hereford fashion the cows held on well up in the hills and managed to hold weaning off until mid-April with a respectable calf.

Every day is an open day here at Tawanui so give us a call and stop by for a visit.

Kind regards

Janelle and Lance Downs

HEREFORD NZ EBV'S EXPLAINED

BREEDPLAN EBVs and selection indexes remove the effects of non-genetic factors (e.g. feeding regimes, animal age) from what is seen and measured to provide the best measure of an animal's genetic merit. BREEDPLAN information should always be used in conjunction with other selection criteria, including visual assessment.

A BEST PRACTICE GUIDE TO SELECTING YOUR NEXT NEW ZEALAND HEREFORD SIRE

A BREEDPLAN Guide to Animal Selection allows you to select the best genetics for your herd in four easy steps:

1. Identify the **New Zealand Hereford selection index** of most relevance to you.
2. **Rank animals** using the chosen selection index.
3. Consider the individual EBVs of importance.
4. Consider other traits of importance (e.a. visual assessment).

The majority of these steps can be undertaken online, allowing you to generate a shortlist of bulls for potential purchase ahead of sale day. The searchable version of this catalogue can be found online at:

www.herefords.co.nz or www.pivotdesign.co.nz/catalogues.

NEW ZEALAND HEREFORD BREEDPLAN

New Zealand Herefords publishes the following BREEDPLAN EBVs and Selection Indexes. Please note that only EBVs from the same BREEDPLAN analysis can be directly compared.

Growth EBVs	Fertility & Birth EBVs	Carcase EBVs	Other EBVs	Selection indexes
Birth Weight	Scrotal Size	Carcase Weight	Docility	Hereford Prime
200 Day Growth	Days to Calving	Eye Muscle Area	Maternal Value	Beef Heifer
400 Day Growth	Gestation Length	Rib Fat		Dairy Beef
600 Day Growth	Calving Ease Direct	Rump Fat		Scan below for more detail
Milk (Maternal)	Calving Ease Daughters	Retail Beef Yield		
Mature Cow Weight		Intramuscular Fat		

More information, including EBV descriptions and how to use them, can be found in the **Using & Understanding BREEDPLAN EBVs** booklet.

<https://breedplan.une.edu.au/media/dtqpdm34/using-and-understanding-breedplan-ebvs.pdf>

Selection Indexes detail can be found at:

<https://breedplan.une.edu.au/media/f1bh1b4n/using-new-zealand-hereford-selection-indexes.pdf>

Auctioneer's Note

On behalf of the selling companies NZ Farmers Livestock and Bradley Livestock it is our pleasure to welcome you all to the 8th Annual Taranaki combined breeders bull Auction for Tawanui, Te Kupe, Aywon held on farm at Downs property Wingrove Road, Stratford .

Quality is once again the key. Our vendors have an absolute passion for breeding and can certainly breed top quality bulls right for every market .

These Hereford and Angus bulls with there genetics line up with the best in the country.

On behalf of both selling companies we thank you for your continued support and wish you all the best for the season ahead.

Also if you are unable to make the sale it will be livestreamed on MyLiveStock through NZ Farmers Livestock so register now

Unlock the Power of Genomics with the GGP 100K Test.

Get the genetic insights you need to make smarter breeding decisions, reduce risk, and maximise herd potential.

GGP 100K is the ultimate genomic profiler.

Look for the GGP 100K logo on sale lots — it shows that the animal has undergone SNP testing (via Neogen & PBB) and has been included in a Genomic Evaluation, with “Genomics” listed under Traits Analysed.

THE VALUE OF GGP 100K

- Make smarter selection decisions — gain genetic insights earlier in an animal's life.
- Market with confidence — provide buyers with verified genomic data.
- Strengthen herd linkages — enhance connections within the Hereford reference population.
- High-density SNP profiling — approx 100,000 SNPs for deeper genetic analysis.
- Trusted parent verification — conducted in-house by the PBB DNA team.

**Power your breeding program with GGP 100K
—because better data leads to better cattle.**

HEREFORD

NOTES: A real stand out as a calf. The heaviest at 200, 400 and then used over Studs. Dam has another cracker heifer calf this year.

ANGUS NZ EBV'S EXPLAINED

EBVs and Selection Indexes remove the effects of non-genetic factors (e.g. feeding regimes, animal age) to provide the best measure of an animals genetic merit.

To ensure the accuracy of EBV and Index data, AngusNZ combine with Angus Australia to create a reference population known as the TransTasman Angus Cattle Evaluation (TACE).

By using TACE – along with visual and structural appraisal – will assist in creating a balanced phenotypical and genotypical breeding outcome.

FOUR STEPS TO SELECTING YOUR NEXT ANGUSNZ SIRE:

1. Consider your individual EBVs of importance
2. Consider other traits of importance (e.g. visual assessment)
3. Identify the **AngusNZ selection** index of most relevance to your breeding programme
4. **Rank animals** using the chosen Selection Index.

AngusNZ publishes the following TACE EBVs and Selection Indexes. Please note that only EBVs from the same TACE analysis can be directly compared.

Growth EBVs	Fertility & Birth EBVs	Carcase EBVs	Other EBVs	Selection Indexes
Birth Weight	Scrotal Size	Carcase Weight	Docility	Self Replacing
200 Day Growth	Days to Calving	Eye Muscle Area	Structural Assessment	AngusPure
400 Day Weight	Gestation Length	Rib Fat		Heifer Dairy Terminal
600 Day Weight	Calving Ease Direct	Rump Fat		<i>Details about the Angus Selection indexes can be found at:</i> breedplan.une.edu.au/media/bqjbnnbh/using-new-zealand-angus-selection-indexes.pdf
Milk (Maternal)	Calving Ease Daughters	Retail Beef Yield		
Mature Cow Weight		Intramuscular Fat		

For more information, including EBV descriptions and how to use them go to: breedplan.une.edu.au/media/dtqpdm34/using-and-understanding-breedplan-ebvs.pdf

Beef + Lamb Genetics have developed a new tool to make it easier to find the best bulls for your farming operation. Using a series of buttons and sliders, you can refine down your breeding criteria. On a click of a button, nProve then generates a list of bulls that best fit that criteria. It's free to use, there's no need to register and there's also helpful tips to get started. Try it out at www.nprove.nz

Just like the bulls that are born and bred in Taranaki for this catalogue, so is the Bradley Livestock team.

It is a privilege to be part of the Tawanui, Te kupe and Aywon Annual bull sale.

We wish the vendors every success on sale day.
