

## Auctioneer Notes – Progeny of Ashport Stud Sire

These are progeny of imported semen from Welsh sire :  
***Gweirglodd Gladiator.***

***Gladiator*** is sired by the highly regarded UK ram ***Birness Murray***, a name well known across British flocks for consistency, muscling, and growth.

These genetics are new to New Zealand, *Top-end muscling, top-end growth,*.

### Performance of this sire:

- **Eye Muscle Scan: 44.04 cm<sup>2</sup>** (scanned 8 January 2025)
  - Anything over 40 cm<sup>2</sup> is considered very good
  - Places him firmly in the **top group of 2-tooth rams in NZ**
- **100-day (3-month) weight: 39.8 kg**
- 
- **Weight at January scan: 127 kg**
- - Demonstrates exceptional growth, constitution, and doing ability
