Raupuha Shorthorns

26th May 2026 STUD SALE

Russell & Mavis Proffit

Welcome you to Raupuha Stud for our 13th

On-farm Bull Sale, 11.30am

Russell & Mavis are proud to invite you to their 13th annual bull sale. Once again we are offering 13 quality Shorthorn Bulls. These sale bulls all have very balanced figures and a good type of Bull which we are aiming to breed. We believe these bulls will add value to your breeding operation.

Check out Videos and Photos of our Bulls on our Facebook & Instagram pages.

Russell, Mavis & Family would like to say a huge thankyou to all our staff , friends , family and businesses that have supported Raupuha Stud in the last 12 months and look forward to the next 12 months.

The Bulls are open for inspection any time

If you have any queries please do not hesitate to contact me.

Remember Keep living the dream. Thank you

Russell Proffit -027 355 2927

O.S.H- Health & Safety Warning

We wish to advise that certain dangers exist in relation to livestock and their environment. Every effort will be taken to ensure the safety of intending buyers and visitors, however, visitors should take care to ensure their personal safety.

MILL VALLEY SHORTHORN

Mill Valley Shorthorn & Wiltshire's are privileged to put up a small offering of fully recorded Shorthorn bulls at Raupuha Stud. Russell and his team have been instrumental in our Shorthorn journey over the past decade and both bulls up for auction are sired by Raupuha Heritage 21015

Farming in Eastern Taranaki hill country, our family operates a Shorthorn and Wiltshire stud – breeding hardy, hassle-free, hill country sires.

Our breeding program values traits that complement the hill-country topography. A mid-sized frame, quiet temperament, milk and an early maturing carcass. The entire herd and its progeny are fully recorded, with all performance and carcass traits observed, along with all animals being DNA tested and sire verified.

If you would like further information, please contact us anytime. We look forward to seeing everyone on 26th May 2026

Aaron & Amanda Harris

Explanatory Notes

BREEDPLAN EBVs and selection indexes remove the effects of non-genetic factors (e.g. feeding regimes, animal age) from what is seen and measured to provide the best measure of an animal's genetic merit. BREEDPLAN information should always be used in conjunction with other selection criteria, including visual assessment.

A BEST PRACTICE GUIDE TO SELECTING YOUR NEXT NEW ZEALAND SHORTHORN SIRE

A BREEDPLAN Guide to Animal Selection allows you to select the best genetics for your herd in four easy steps:

1. Identify the New Zealand Shorthorn selection index of most relevance to you.

Self Replacing Index	Dairy Index
A selection for where some daughters are retained as replacements and steers finished	A terminal index for Shorthorn bulls used in Dairy Cows

2. Rank animals using the chosen selection index.
3. Consider the individual EBVs of importance.
4. Consider other traits of importance (e.g. visual assessment).

The majority of these steps can be undertaken online, allowing you to generate a shortlist of bulls for potential purchase ahead of sale day.

The searchable version of this catalogue can be found online at <https://www.shorthorn.co.nz/> or at Pivot Design: www.pivotdesign.co.nz/catalogues

NEW ZEALAND SHORTHORN BREEDPLAN

A BREEDPLAN Guide to Interpreting EBVs outlines how to assess and compare the genetic merit of animals. Please note that only EBVs from the same BREEDPLAN analysis can be directly compared. The New Zealand Shorthorn Association publishes the following BREEDPLAN EBVs:

Calving Ease Direct (%): Higher (or more positive) CEDir EBVs indicate that two year old heifers will have less difficulty when calving this sire's progeny.

Calving Ease Daughters (%): Higher (or more positive) CEDtr EBVs indicate easier calving of this sire's daughters at two years of age.

Gestation Length (days): Bulls with lower (or more negative) GL EBVs are expected to produce progeny with shorter gestation lengths. Such progeny are also expected to be easier calving.

Birth Weight (kg): Bulls with lower, less positive BWt EBVs are expected to produce progeny that are lighter at birth, with an associated lower risk of calving difficulty. This EBV is particularly important when selecting sires where there is an increased risk of calving difficulty (e.g. heifers, cross-breeding).

COMPARING EBVs:

The EBVs for Beef Shorthorns can not be compared with EBVs for animals of another breed. They should be compared with the current average EBVs for Australasian Beef Shorthorn shown below.

2026 SHORTHORN BREEDPLAN AVERAGES FOR 2024 BORN CALVES

Ross Macdonald.....M: 021 126 8392

NZ Farmers Livestock

Brett WallbankM: 0274 881 299

Brent Bougen.....M: 0272 104 698

TB C10 • BVD - All bulls have been tested negative of BVD and vaccinated.

CONDITIONS OF SALE

All intending purchasers must register at the PGG Wrightson Ltd Livestock (PGW) sales office prior to the sale. The New Zealand Stock & Station Agent's Association Conditions of Sale apply. These terms can be inspected at the registration desk and on the wall in the auction room.

PGW's Monthly Account Terms of Trade also apply to the extent deemed relevant by PGW. The current versions of PGW's Monthly Account Terms of Trade are also available online at: www.pggwrightson.co.nz **Our-Company\Terms-and-Conditions** or in hardcopy on request.

On behalf of the vendor, PGW will pay a purchasing rebate of 6% of the purchase price excluding GST, plus GST, to livestock companies and recognised independent livestock agents with a PGW Monthly Account who have introduced buyers to PGW before the sale and/or accompanied buyers to the sale.

Arrangements must be made with the auctioneer PRIOR TO THE SALE AND SETTLEMENT MADE ON THE BUYERS BEHALF WITHIN 14 DAYS.

FMG
Advice & Insurance

BULL-PROOF

YOUR ASSETS AGAINST RURAL THEFT.

Theft and burglaries occur more often than you think, and the number of theft claims is increasing.

Every year FMG supports over 1,000 families impacted by theft and burglary. Alarmingly, 1 in 5 clients at rural addresses have been targeted more than once in the same year!

We think now's the time to put a lock on that trend. We have teamed up with NZ Police to create a Rural Crime Prevention Guide to help prevent theft and burglaries at your rural property – find out more at fmg.co.nz/rural-theft

We're here for the good of the country.

FMG Premier Bull Sale Insurance Form

What is FMG Premier Bull Insurance?

On receiving a completed FMG Premier Bull Sale Insurance form from an existing FMG client, FMG provides insurance cover for bulls including theft, death caused by certain accidents, injury, disease, illness or humane destruction and permanent infertility, provided the bull's purchase price does not exceed \$50,000 +GST. Please contact an FMG representative if you are not an FMG client, or you purchased a bull for over \$50,000+GST.

What is the length of cover?

Your specified bull(s) can be insured for up to 12 months on FMG Premier Bull Sale Insurance.

What are the benefits?

✓ Infertility	Cover if your specified bull has to be intentionally slaughtered due to permanent infertility caused by certain accidents, disease, or illness.
✓ Theft or death	Cover for your specified bull for theft or death caused by certain accidents, disease, injury, or illness (including while in transit anywhere in New Zealand).
✓ Vet costs	Cover up to \$500 for treatment of your specified bull to prevent death.

What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.

03/26 INHD
