COLVEND

~ ANGUS AND SHORTHORN STUD ~

BULL SALE

Alan & Val Park

welcome you to Colvend for our
Annual on Farm Bull Sale.

You are invited to join us for
light refreshments after the sale.

Alan, Val and Ash welcome you to our annual on farm bull sale.

We have lived here in the Tapuiwahine Valley since June 1998. We then purchased our first Shorthorn cows in May 2000. 2 cows from Jeff Proffitt and the majority of Ina Philips herd from Darfield in the S.I.

We purchased our first Angus cows in 2016 from Oakview Angus Stud (established around 30 years ago.) We were fortunate to have such a great line of females to start our Angus breeding journey with (and that have handled our conditions so well.)

Colvend expanded in 2024, purchasing a second farm 25 minutes north from the Tapuiwahine farm. The Shorthorns have moved to the new farm with Alan & Valerie. Whilst the Angus herd and stud bulls remain here in the valley.

O.S.H Health & Safety

Every effort has been taken by the vendors to ensure the safety of all visitors on Sale day or any other day. However we wish to advise that this is a farm run under normal management conditions and certain dangers exist in relation to livestock and their environment. We ask visitors to take care to ensure their personal safety.

Facebook

Conditions of Sale

Fertility Guarantee

All bulls in this catalogue have been semen and service tested by Tararua Breeding Center and are guaranteed fertile and in working order at the time of sale. A copy of the semen and service testing will be on display on sale day.

The purchase price of any bull proven to be infertile will be refunded by the vendor, provided the bull has been kept in fair and reasonable condition by the purchaser, and the purchaser has been notified within 6 months from the date of sale.

The bull will become the property of the vendor and will be disposed of at his discretion.

Feet Guarantee

All bulls in this catalogue carry a feet soundness guarantee for three years from date of purchase. Should they develop a fault which affects the bull's ability to breed, arrangements are to be made with the vendor who will refund on a proportionate basis. With 1/3 of purchase price being deducted for each year, minus the salvage value.

The method of refund applying to the above guarantees will be that the vendor will make credit available to the purchaser via subsequent bull sales held by the vendor.

Insurance

All bulls become the buyers responsibility from the fall of the hammer.

Delivery

Free delivery in the North Island within 7 days on bulls sold at auction

AUCTIONEERS & AGENTS

PGG Wrightson

Cam Heggie 027 501 8182

Marty Cashin 027 497 6414

NZ Farmers Livestock

Brent Bougen 027 210 4698

Vaughan Rogers 027 452 1568

PGG Wrightsons & NZ Farmers Livestock.

Commission

6% will be paid to all companies introducing purchasers prior to the sale.

TB C10

BVD

All bulls have been tested negative for BVD and vaccinated.

PURCHASING REBATE

All intending purchasers must register at the sales office prior to the sale.

PGW will pay a purchasing rebate of 5% of the purchase price excluding GST, plus GST, to livestock companies & recognised independent livestock agents with a PGW account who have introduced buyers to PGW before the sale and/or accompanied buyers to the sale.

TERMS AND CONDITIONS

The New Zealand Stock & Station Agent's Association Conditions of Sale and, to the extent deemed relevant by PGG Wrightson Limited (PGW), PGW's Terms of Sale apply to this sale. When proceeds are credited or a purchase is debited to a PGW monthly credit account, then PGW's Monthly Account Terms of Trade (as amended from time to time) apply to the extent deemed relevant by PGW. These terms can be inspected at the registration desk and on the wall in the auction room. The current versions of PGW's Terms of Sale and Monthly Account Terms of Trade are also available online at: www.pggwrightson.co.nz/Our-Company/Terms-and-Conditions or in hardcopy on request.

DISCLAIMER

The TRANSTASMAN ANGUS CATTLE EVALUATION Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by International Genetic Solutions (IGS) from the data supplied by breeders. Neither Shorthorn NZ, AngusNZ nor IGS oversee or audit the collection of this data.

**Please bring this catalogue
to the sale.**

BUYING ONLINE?

- This sale will be held as a HYBRID ON-FARM auction on bidr (bidr.co.nz).
- There will be online bidding and a livestream of the sale for bidders.
- All online purchasers must register with bidr through an account with a bidr partner agency before sale day.
- For help with signing up or registering, contact the bidr team on 0800 TO BIDR (0800 86 2437) or email enquiries@bidr.co.nz

Alternatively, contact your local bidr® representative:

AngusNZ EBVs Explained

EBVs and Selection Indexes remove the effects of non-genetic factors (e.g. feeding regimes, animal age) to provide the best measure of an animals genetic merit.

To ensure the accuracy of EBV and Index data, AngusNZ combine with Angus Australia to create a reference population known as the TransTasman Angus Cattle Evaluation (TACE).

By using TACE – along with visual and structural appraisal – will assist in creating a balanced phenotypical and genotypical breeding outcome.

FOUR STEPS TO SELECTING YOUR NEXT ANGUSNZ SIRE:

1. Consider your individual EBVs of importance
2. Consider other traits of importance (e.g. visual assessment)
3. Identify the **AngusNZ selection** index of most relevance to your breeding programme
4. **Rank animals** using the chosen Selection Index.

AngusNZ publishes the following TACE EBVs and Selection Indexes. Please note that only EBVs from the same TACE analysis can be directly compared.

| Growth EBVs | Fertility & Birth EBVs | Carcase EBVs |
|--------------------|-----------------------------------|---------------------|
| Birth Weight | Scrotal Size | Carcase Weight |
| 200 Day Growth | Days to Calving | Eye Muscle Area |
| 400 Day Weight | Gestation Length | Rib Fat |
| 600 Day Weight | Calving Ease Direct | Rump Fat |
| Milk (Maternal) | Calving Ease Daughters | Retail Beef Yield |
| Mature Cow Weight | | Intramuscular Fat |

| Other EBVs | Selection Indexes |
|-----------------------|--|
| Docility | Self Replacing |
| Structural Assessment | AngusPure |
| | Heifer Dairy Terminal |
| | <i>Details about the Angus Selection indexes can be found at:</i> breedplan.une.edu.au/media/bqjbnnbh/using-new-zealand-angus-selection-indexes.pdf |
| | |
| | |

For more information, including EBV descriptions and how to use them go to: breedplan.une.edu.au/media/dtqpdm34/using-and-understanding-breedplan-ebvs.pdf

Beef + Lamb Genetics have developed a new tool to make it easier to find the best bulls for your farming operation. Using a series of buttons and sliders, you can refine down your breeding criteria. On a click of a button, nProve then generates a list of bulls that best fit that criteria. It's free to use, there's no need to register and there's also helpful tips to get started. Try it out at www.nprove.nz

Research Breeding Value (RBV)

Definitions

Hip Height RBV

Hip Height RBV estimates genetic differences in skeletal frame size, measured at the hip. Taller animals generally have a larger mature frame size and higher growth potential but may also have greater maintenance requirements. This trait is useful for managing frame size within a herd to match production system and market targets.

Body Condition Score RBV

Body Condition Score RBV estimates genetic differences in body condition score, reflecting the amount of fat cover and energy reserves an animal carries. Higher values indicate animals whose progeny are expected to maintain greater body condition. BCS is an indicator of metabolic efficiency and resilience, with implications for fertility and cow longevity.

INVEST IN YOUR HERD'S FUTURE

Unlock the Power of Genomics

Get the genetic insights you need to make smarter breeding decisions, reduce risk, and maximise herd potential with the genomic profiling options available through PBB.

Look for this logo on sale lots— it shows that the animal has been DNA profiled using a SNP-based test and has been included in a genomic evaluation. You will also see “Genomics” listed under its “Traits Analysed”.

VERIFIED GENETICS, CONFIDENT DECISIONS, STRONGER HERDS

- Make smarter selection decisions — gain genetic insights earlier in an animal's life.
- Market with confidence — provide buyers with verified genomic data.
- Strengthen herd linkages — enhance connections within the reference population.
- High-density SNP profiling — for targeted genetic analysis.
- Trusted parent verification — conducted in-house by the PBB DNA team.

Power your breeding program with genomics — because better data leads to better cattle.

FOR COMPLETE END-TO-END SERVICE AND SUPPORT, TALK TO THE PBB DNA TEAM

COMMENTS: Take a look at one of our new future sires via AI, Tangihau Tyson T509, who sold to Oregon and Albert Hill Angus studs in 2024 for \$90000.

We have some cracking young bulls from Tyson that will be up for sale in our 2027 Annual bull sale.

COMMENTS: Our new sire bull purchased from Tangihau bull sale in June 2025 for \$65000. He is a soft and moderate framed Albert of Stern son, who will produce great cattle for the hill country.

We look forward to seeing his first calves hit the ground this year.

FMG
Advice & Insurance

BULL-PROOF

YOUR ASSETS AGAINST RURAL THEFT.

Theft and burglaries occur more often than you think, and the number of theft claims is increasing.

Every year FMG supports over 1,000 families impacted by theft and burglary. Alarmingly, 1 in 5 clients at rural addresses have been targeted more than once in the same year!

We think now's the time to put a lock on that trend. We have teamed up with NZ Police to create a Rural Crime Prevention Guide to help prevent theft and burglaries at your rural property – find out more at fmg.co.nz/rural-theft

We're here for the good of the country.

COMMENTS: 2nd heaviest bull at weaning, who grew to be heaviest bull at 400-day weight. He was a standout bull who was selected to be put over mixed age cows for 1 cycle. Full brother to last year's top priced bull. A very good family line here, with his dam producing the top priced bulls for the last 2 years. She is still active in the herd at rising 14 years old.

NZ Shorthorn EBVs Explained

SHORTHORN NZ EBV's Explained

BREEDPLAN EBVs and selection indexes remove the effects of non-genetic factors (e.g. feeding regimes, animal age) from what is seen and measured to provide the best measure of an animal's genetic merit. BREEDPLAN information should always be used in conjunction with other selection criteria, including visual assessment.

A BEST PRACTICE GUIDE TO SELECTING YOUR NEXT NEW ZEALAND SHORTHORN SIRE

A BREEDPLAN Guide to Animal Selection allows you to select the best genetics for your herd in four easy steps:

1. Identify the New Zealand Shorthorn selection index of most relevance to you.
2. Rank animals using the chosen selection index.
3. Consider the individual EBVs of importance.
4. Consider other traits of importance (e.g. visual assessment).

The majority of these steps can be undertaken online, allowing you to generate a shortlist of bulls for potential purchase ahead of sale day.

The searchable version of this catalogue can be found online at <https://www.shorthorn.co.nz/> or at Pivot Design: www.pivotdesign.co.nz/catalogues

NZ SHORTHORN BREED AVERAGES FOR 2024 BORN CALVES

More information, including EBV descriptions and how to use them, can be found in the **Using & Understanding BREEDPLAN EBVs** booklet. Scan the QR code for details.

<https://breedplan.une.edu.au/media/dtqpdm34/using-and-understanding-breedplan-ebvs.pdf>

NEW ZEALAND SHORTHORN BREEDPLAN

The New Zealand Shorthorn Association publishes the following BREEDPLAN EBVs and Selection Indexes. Please note that only EBVs from the same BREEDPLAN analysis can be directly compared.

| Growth EBVs | Fertility & Birth EBVs |
|-------------------|------------------------|
| Birth Weight | Scrotal Size |
| 200 Day Growth | Days to Calving |
| 400 Day Growth | Gestation Length |
| 600 Day Growth | Calving Ease Direct |
| Milk (Maternal) | Calving Ease Daughters |
| Mature Cow Weight | |

| Carcase EBVs | Selection indexes |
|-------------------|---|
| Carcase Weight | Self Replacing Index |
| Eye Muscle Area | Dairy Index |
| Rib Fat | <i>Scan QR code for more detail</i> |
| Rump Fat |  |
| Retail Beef Yield | |
| Intramuscular Fat | |

Information on Selection Indexes can also be found at:
<https://breedplan.une.edu.au/media/xu0o2bi1/using-new-zealand-shorthorn-selection-indexes.pdf>

FMG Premier Bull Sale Insurance Form

What is FMG Premier Bull Insurance?

On receiving a completed FMG Premier Bull Sale Insurance form from an existing FMG client, FMG provides insurance cover for bulls including theft, death caused by certain accidents, injury, disease, illness or humane destruction and permanent infertility, provided the bull's purchase price does not exceed \$50,000 +GST. Please contact an FMG representative if you are not an FMG client, or you purchased a bull for over \$50,000 +GST.

What is the length of cover?

Your specified bull(s) can be insured for up to 12 months on FMG Premier Bull Sale Insurance.

What are the benefits?

- ✓ **Infertility** Cover if your specified bull has to be intentionally slaughtered due to permanent infertility caused by certain accidents, disease, or illness.
- ✓ **Theft or death** Cover for your specified bull for theft or death caused by certain accidents, disease, injury, or illness (including while in transit anywhere in New Zealand).
- ✓ **Vet costs** Cover up to \$500 for treatment of your specified bull to prevent death.

What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.

Apply

Please fill in this form as soon as you have purchased your new bull(s) and hand it to your FMG representative. This form **MUST** be fully completed for Premier Bull Sale Insurance.
