

PUKE-NUI — ANGUS —

ANNUAL BULL SALE

TUESDAY 2 JUNE
2026 AT 4:00PM

BALANCE DELIVERS RETURNS

BRED FOR BALANCE

Strong maternal traits. Quality carcasses. Superior genetics.

FARMED FOR BALANCE

Performs everywhere — from hill country to finishing systems.

RECORDED FOR BALANCE

Agile performance data recorded for NZ conditions and market-focused indexes.

CONSUMED FOR BALANCE

Carcase quality that delivers on-farm and on the plate.

Angus NZ delivers **Better Balanced Beef**

NEW ZEALAND

PUKE-NUI
— ANGUS —

**12TH ANNUAL
BULL SALE**

**4:00PM Tuesday
2ND JUNE 2026**

To be Held at Bull Sale Venue, 303 River Road, SH 43, Taumarunui

And online Streamed through  &  | All cattle will be yarded in pens for viewing from 2pm

Contact: Phone Alan on 027 3622 294 or Catherine on 027 4735 136
Or Your Agent

Participating Companies: PGG Wrightson, NZ Farmers Livestock

**PGG Wrightson**

**NZ FARMERS LIVESTOCK**

PLEASE BRING THIS CATALOGUE TO THE SALE WITH YOU

This Sale will be Streamed Online by MyLivestock and BIDR

MYLIVESTOCK

NZ Farmers Livestock's live online bidding platform MYLIVESTOCK means that farmers across New Zealand are able to virtually attend and bid at this sale.

Here's some tips to help you get started on NZFL's live auction platform

- Ensure you have a fully operating NZFL account for registration.
- Login / register with MyLiveStock (quick and simple)
- Once logged in, enter your NZFL Account Number/Code and we'll activate your account for online bidding.
- You can register at any time so don't leave it until the saleday. If you don't have a NZFL Account Number/Code already, call us on 0800 695 483 and we'll get you set up and verified (this process can take up to 24 hours).
- To get the best experience possible, access our live online bidding via laptop or desktop computer. The preferred browser to access our live streaming is Chrome. It's also a good idea to close all other tabs open on your computer to ensure a uninterrupted feed.
- If you need help, pick up the phone and call 0800 695 483 - we're here to help.

Please note, customers of any of the following agencies are able to use their trading account with said agency for purchasing in bidr® auctions

- Carrfields Livestock Ltd, Hazlett Livestock Ltd, John Griffith & Co, Link Livestock, PGG Wrightson Ltd, Peter Walsh & Associates Ltd, Progressive Livestock Ltd, Redshaw Livestock Ltd, Rural Livestock Ltd

The logo for bidr, featuring the word "bidr" in a bold, lowercase, sans-serif font. The letter "i" has a unique design with a horizontal bar extending to the left.

BUYING ONLINE?

- This sale will be held as a HYBRID ON-FARM auction on bidr (bidr.co.nz).
- There will be online bidding and a livestream of the sale for bidders.
- All online purchasers must register with bidr through an account with a bidr partner agency before sale day.
- For help with signing up or registering, contact the bidr team on 0800 TO BIDR (0800 86 2437) or email enquiries@bidr.co.nz

Welcome to Puke-Nui Angus Stud

Puke-Nui Angus Stud was established in 2006 in Taumarunui by Alan & Catherine Donaldson. The foundation cows were acquired from the Waimata Angus Stud in Gisborne. All foundation cows were of Pure New Zealand bloodlines, and the Puke-Nui Stud has maintained these strong NZ bloodlines in the majority of its female line while always looking to improve on their genetics through bringing in carefully selected bloodlines to put over our herd. Recently we have selected some AI Sires to improve some Maternal & Carcase characteristics. Currently we are calving 200 Stud Females at Puke-Nui.

We are seeing an across the board improvement in growth and carcase while maintaining our fertility and calving ease.

Puke-Nui Angus is run on Steep King Country Hills, farmed alongside sheep, in a 70/30 sheep/cattle ratio operation. The breeding Cow herd is used to promote and maintain pastures while still achieving excellent production themselves. For much of the year our cows consume poorer quality herbage which is of little value to other stock.

Since 2019 Puke-Nui Angus has adopted genomic testing of all replacement Heifers and all Bulls, this offers more accurate breeding evaluation and a more advanced management tool in the Herd.

We welcome everyone to the Puke-Nui Angus sale

IT ALL STARTS WITH A FIT BULL TEAM

Waiting for three weeks into mating to find out if your bull team is working is like playing Russian roulette

Want to collect for AI?

All aspects of synchrony programmes, collection for AI, semen processing & storage can be catered for.

Checks that will ensure your bull team are in top shape for the breeding season.

Tararua Breeding Centre and Totally Vets on-farm fertility testing program:

- Libido
- Mounting capability
- Anatomical evaluation
- Semen evaluation
- Animal welfare friendly

Our experienced technicians use a natural service technique using an AV (artificial vagina) as our preferred method.

CONDITIONS OF SALE and other Information

TERMS & CONDITIONS (PGG WRIGHTSON)

The New Zealand Stock & Station Agent's Association Conditions of Sale and, to the extent deemed relevant by PGG Wrightson Limited (PGW), PGW's Terms of Sale apply to this sale. When proceeds are credited or a purchase is debited to a PGW monthly credit account, then PGW's Monthly Account Terms of Trade (as amended from time to time) apply to the extent deemed relevant by PGW. These terms can be inspected at the registration desk and on the wall in the auction room. The current versions of PGW's Terms of Sale and Monthly Account Terms of Trade are also available online at : www.pggwrightson.co.nz\Our-Company\Terms-and-Conditions or in hardcopy on request.

REBATE COMMISSION

All intending purchasers are required to register at the sales office prior to the sale. A purchasing rebate of 6% will then be paid to non-participating live-stock companies and recognized independent livestock agents with approved credit facilities introducing and/or accompanying buyers to the sale. Arrangements must be made prior to the sale and settlement made on the purchasers's behalf within 14 days.

INSURANCE

We recommend you insure your Bulls, please arrange your own livestock insurance. A representative from AON and FMG will be On-site to assist you with Insurance needs.

GUARANTEE

All Bulls are guaranteed for fertility and soundness. If for any reason a Puke-Nui Bull does not perform as a result of his own fertility or structural defect, **excluding injury**, we will refund the purchase price. This will be by way of a credit at the following sale or by other means at our discretion. In the case of suspected infertility, notify the breeder so we can advise on the guarantee procedure. In the event of any misadventure we will do our best to supply a suitable bull to get your cows in calf.

DELIVERY

Delivery of Bulls will be free within the North Island at the Vendor's convenience.

INSTRUCTIONS

Purchasers are to fill out the Instruction slip at the **back of the Catalogue** and hand it to the Sales clerk before leaving the Sale.

HEALTH

Bulls are BVD Tested and Vaccinated

Bulls are Lepto Vaccinated, 10in1 Vaccinated

TB Clear C10 Herd

BULL FERTILITY EVALUATION

Bulls have passed the Tararua Breeding Centre Bull Semen Evaluation.

This evaluation was carried out by Lucas Reina of Totally Vets Ltd

GENETICS

All Bulls have been 72K Genomic Tested (This gives more accuracy to their EBV's which are enhanced by this test, the genomic testing verifies parentage and identifies which DNA segments have been passed from the parents)

All Bulls are AM, NH, CA, DD Tested Free of these Genetic Defects

DISCLAIMER:

All details and descriptions have been supplied by the Vendors and while every care has been taken to ensure accuracy, no responsibility is accepted for any omission or error that might be contained therein.

HEALTH AND SAFETY

Every effort will be taken by the Vendors, Auctioneer, staff and assistants, on the Day of the Sale, to ensure the safety of intending buyers and visitors. We wish however to advise that this is a Farm run under normal management conditions, and certain dangers exist in relation to livestock and their environment. Visitors should take care to ensure their personal safety.

Under the Occupational health & safety Act 1992 we are required to advise people of possible hazards:

HAZARDS:

- Cattle Movements, Cattle Yards, Slippery Surface, Uneven Ground, Bull Sale Area,
- Work vehicles, Grandstand Seating Area
- No Children In Pens With Cattle

Afternoon Tea is available before the sale and a barbeque with refreshments at the conclusion of the sale – we warmly welcome you to stay for something to eat and drink.

AngusNZ EBVs Explained

EBVs and Selection Indexes remove the effects of non-genetic factors (e.g. feeding regimes, animal age) to provide the best measure of an animals genetic merit.

To ensure the accuracy of EBV and Index data, AngusNZ combine with Angus Australia to create a reference population known as the TransTasman Angus Cattle Evaluation (TACE).

By using TACE – along with visual and structural appraisal – will assist in creating a balanced phenotypical and genotypical breeding outcome.

FOUR STEPS TO SELECTING YOUR NEXT ANGUSNZ SIRE:

1. Consider your individual EBVs of importance
2. Consider other traits of importance (e.g. visual assessment)
3. Identify the **AngusNZ selection** index of most relevance to your breeding programme
4. **Rank animals** using the chosen Selection Index.

AngusNZ publishes the following TACE EBVs and Selection Indexes. Please note that only EBVs from the same TACE analysis can be directly compared.

Growth EBVs	Fertility & Birth EBVs	Carcase EBVs	Other EBVs	Selection Indexes
Birth Weight	Scrotal Size	Carcase Weight	Docity	Self Replacing
200 Day Growth	Days to Calving	Eye Muscle Area	Structural Assessment	AngusPure
400 Day Weight	Gestation Length	Rib Fat		Heifer Dairy Terminal
600 Day Weight	Calving Ease Direct	Rump Fat		Details about the Angus Selection indexes can be found at: breedplan.une.edu.au/media/bqjbnnbh/using-new-zealand-angus-selection-indexes.pdf
Milk (Maternal)	Calving Ease Daughters	Retail Beef Yield		
Mature Cow Weight		Intramuscular Fat		

For more information, including EBV descriptions and how to use them go to: breedplan.une.edu.au/media/dtqpdm34/using-and-understanding-breedplan-ebvs.pdf

Beef + Lamb Genetics have developed a new tool to make it easier to find the best bulls for your farming operation. Using a series of buttons and sliders, you can refine down your breeding criteria. On a click of a button, nProve then generates a list of bulls that best fit that criteria. It's free to use, there's no need to register and there's also helpful tips to get started. Try it out at www.nprove.nz

The TransTasman Angus Cattle Evaluation Estimated Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by breeders. Neither Angus NZ nor ABRI oversee or audit the collection of this data.

Research Breeding Value (RBV) Definitions

Hip Height RBV

Hip Height RBV estimates genetic differences in skeletal frame size, measured at the hip. Taller animals generally have a larger mature frame size and higher growth potential but may also have greater maintenance requirements. This trait is useful for managing frame size within a herd to match production system and market targets.

Body Condition Score RBV

Body Condition Score RBV estimates genetic differences in body condition score, reflecting the amount of fat cover and energy reserves an animal carries. Higher values indicate animals whose progeny are expected to maintain greater body condition. BCS is an indicator of metabolic efficiency and resilience, with implications for fertility and cow longevity.

HERITABILITY OF TRAITS IN ANGUS TACE

Only part of the variation that we observe among animals is due to genetic differences. The majority of the variation is generally due to non-genetic factors such as differences in environment and nutrition.

The degree to which genetic differences influence performance varies from trait to trait. This is explained by differences in the “heritability” of the traits.

Growth and carcass traits tend to have moderate to high heritabilities (i.e. 20 to 60%), whilst maternal traits have low heritabilities (10% or lower).

The TransTasman Angus Cattle Evaluation takes into account the different degrees of heritability of various traits, and the known genetic relationships between the traits.

■ The amount of genetic influence in a trait.

■ The amount of environmental (non-genetic) influence in a trait.

ANGUSPURE PARTNER STUD

AngusPure NZ has teamed up with 91 Angus studs who share in our vision - to focus on the end consumer. This stud is proud to be named as one of them, and by using the finest genetics and implementing best management practice they can help you produce more premium quality Angus beef.

Only our AngusPure Partner studs display these devices in their sale catalogues. They indicate bulls endorsed by AngusPure NZ.

A ANGUSPURE ENDORSED BULLS

AngusPure NZ continues to endorse bulls for sale that are either at or above +\$131 for the AngusPure index (API) and at or above +\$118 for the AngusPRO index (\$PRO). These indexes give commercial farmers confidence that by using these selection tools, bulls are most likely to leave progeny with superior carcase quality. At the same time, they achieve desirable outcomes for self-replacing herds, as the AngusPure & AngusPRO indexes still reward cattle with strong maternal attributes like calving ease, scrotal and growth, along with carcase weight.

To qualify, bulls will be => +\$131 for AngusPure index OR => +\$118 for AngusPRO index

A+ EXTRA ANGUSPURE ENDORSEMENT FOR MARBLING

In addition to the 'A', and to assist bull buyers who wish to select for more marbling AngusPure is rewarding those animals that are either at or above +\$147 for the AngusPure Index (API) and at or above +\$132 for the AngusPRO Index (\$PRO). In addition to this, they must have an IMF EBV (for marbling) equal to or greater than +2.6. These bulls will be awarded an 'A+' endorsement. Marbling is one of the very highest eating quality attributes and is necessary in order to meet some of the highest premium requirements for the export program, AngusPure Special Reserve.

To qualify, bulls will be => +\$147 for AngusPure index OR => +\$132 for AngusPRO index, and in addition all bulls must be => +2.6 for IMF EBV

AngusPure NZ recognises the need to lift the amount of marbling in our New Zealand cow genetics, in order to fill the requirements of consumers going forward. Marbling has two critical components; genetics and feeding. Feeding on a rising plane of nutrition is vital but without the right genetics, these attributes will not be able to express themselves.

We're proud to support Alan & Cathy Donaldson

Hey, I'm Martin Weir, the
Territory Manager for Taranaki.

*We're a proud supporter of
rural communities*

We're an agribusiness bank. Our managers live and work in our local communities. In the spirit of Rabobank's cooperative heritage, we are committed to supporting rural communities.

If you'd like to grow with Rabobank
call 0800 500 933 | rabobank.co.nz

Unlock the Power of Genomics

Get the genetic insights you need to make smarter breeding decisions, reduce risk, and maximise herd potential with the genomic profiling options available through PBB.

Look for this logo on sale lots— it shows that the animal has been DNA profiled using a SNP-based test and has been included in a genomic evaluation. You will also see “Genomics” listed under its “Traits Analysed”.

ANGUSGS
Powered by Neogen

VERIFIED GENETICS, CONFIDENT DECISIONS, STRONGER HERDS

- Make smarter selection decisions — gain genetic insights earlier in an animal's life.
- Market with confidence — provide buyers with verified genomic data.
- Strengthen herd linkages — enhance connections within the reference population.
- High-density SNP profiling — for targeted genetic analysis.
- Trusted parent verification — conducted in-house by the PBB DNA team.

**Power your breeding program with genomics
— because better data leads to better cattle.**
