Sale held Under Cover

Lunch provided and a free coffee-van on site

Auctioneers Foreword

10 years ago it was probably with an element of trepidation the decision was made to run a bull sale. Would it be a success? Time says yes, and if average price and buyer satisfaction means anything, each sale has improved.

Buyers come back year after year knowing the product will satisfy in every way. New buyers are also welcome to enjoy the buzz of purchase along with the hospitality.

Overseas sired bulls as well as polled genetics are included in the lineup.

In response to demand the increased number of 30 x 2 year bulls will be offered at this sale giving a better balance of market age group. The dairy market outlook is optimistic, the beef market is positive, and the Lynrich bulls are looking well.

Enquires prior to the sale please contact: Richard and Christine Lansdaal 027 353 5693
Ross Riddell 0272 111 112.

Bred, reared and grazed on Lansdaal properties.

Link Livestock

Lynrich Foreword

Welcome to our 10th Annual Lynrich Jersey Bull Sale

Welcome to our **10th Annual Lynrich Jersey Bull Sale**. We are proud to present another quality lineup of Jersey bulls, carefully bred and reared with a strong focus on performance, temperament, and longevity. Reaching our tenth sale is a milestone for our family, and we sincerely appreciate the ongoing support from both returning and new buyers.

Sale Offering

This year's sale includes:

- **Lots 1–30:** R2 Jersey bulls
- **Lots 31–84:** Elite High BW R1 Jersey bulls, sold by Link Livestock
- **A further 155 R1 Jersey bulls**, sold by New Zealand Farmers Livestock

All bulls have been double vaccinated for Leptospirosis and BVD, TB tested, and come from a closed herd, allowing you to buy with confidence.

Our Story

The bulls offered today are born on our two neighbouring dairy farms near Morrinsville before being moved at four days of age to our dry stock farm, where Simon and Nicole rear them through to sale. Calm, consistent handling is a priority throughout their development, producing bulls with excellent temperaments and sound structure.

Our family has been breeding Jersey cattle for over 30 years. Richard and Christine purchased the original dairy farm in Motumaoho before expanding to include a neighbouring dairy unit and the dry stock farm on Luck at Last Road. The farms continue to operate on a low-input, pasture-based system with no imported feed.

Today, all three of our children are actively involved:

- Megan and Sam are 50/50 sharemilking on the home farm. So the FMHM herd is under McLands Ltd now.
- Natalie works for AgResearch while leading our breeding programme.
- Simon and Nicole are Shareholders in SNL and rear all the bulls and manage the grazing property at Luck at Last Road.

Our Breeding Focus

This year's lineup includes:

- Outcross bulls
- Ex-contract mated bulls from LIC, CRV and Jersey Genome
- Dams with excellent classification scores
- Proven, high-producing cow families with strong Breeding Worths
- We now have bulls purchased by CRV through the Jersey Genome Programme. **Lynrich Jarvis**, Lynrich Vital, Lynrich Hammerman and Lynrich Topper.

Our breeding programme is focused on improving fertility, stature, capacity and udder traits while maintaining strong production. Fertility has been a major emphasis in recent years, and we are pleased with the progress we're seeing across the herd.

Natalie and Megan carefully select sires to improve each cow while minimising inbreeding, including the use of Danish genetics to increase genetic diversity.

Polled Genetics

This year's catalogue also includes **heterozygous polled bulls**. When used over horned cows, a heterozygous polled sire is expected to produce approximately **50% naturally polled (hornless) calves**, offering an opportunity to reduce the need for disbudding while maintaining strong Jersey genetics.

Thank you for your interest in our breeding programme and for supporting our family operation. We hope you find bulls that add lasting value to your herd and look forward to catching up with you on sale day.

Warm regards,

The Lansdaal Family

Darryl Houghton - 027 451 5315

Ross Riddell - 027 211 1112

DISCLAIMER:

The information printed in this catalogue is derived from data supplied by the vendors and stored in the National database. Although every care has been taken to ensure accuracy in the production of this catalogue, the vendors, the vendors' agents, the Auctioneers or its agents, LIC, its subsidiary or its agents who collect, process or publish the information supplied; and the printer do not take any responsibility or liability for any errors, omissions or misstatements contained herein.

OSH:

Every effort will be taken by the Vendors, Auctioneers, their staff and assistants, both on the day of the sale as well as on any other visits of inspection to ensure the safety of intending buyers and visitors. However, we wish to advise that this is a farm run under normal management conditions and certain dangers exist in relation to livestock and their environment. Visitors should take all care to ensure their personal safety and children must be supervised at all times.

CONDITIONS OF SALE

FEMALE GUARANTEE: Every female shown as bred on a certain date, except any which may have been served within six weeks of the sale, is guaranteed in-calf. Every female where shown as pastured with a bull is guaranteed in-calf. This guarantee expires five weeks from day of sale.

Where this catalogue specifies an expected calving date (other than a pastured with bull expected calving date), and that date later proves to be completely inaccurate, the Vendor shall refund 25% of the purchase price direct to the Purchaser. As a basis of arbitration a period of fourteen days either side of specified calving date shall constitute the maximum tolerance allowed for calving. The 25% refund shall not apply where pastured with bull details and dates are printed in this catalogue, unless it is specifically stated that the specified calving date guarantee is to apply.

The foregoing conditions shall apply only after the following guarantees:

1. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the Vendor subject always to liability under other clauses contained in the Conditions of Sale and the Special Conditions of Sale. The purchaser has the right to retest at his or her own expense before delivery is made from the place of sale.
2. Where a female is offered for sale as being in-calf, without a supporting Veterinary Certificate and the female is subsequently proved to be empty the Purchaser has the right to return the female to the Vendor or carry out such disposal as the Vendor may instruct and the Vendor will refund to the Purchaser the purchase price plus the transport costs only.
3. Mummified Calf: Where any female sold as being in calf proves to be carrying a mummified calf, no responsibility is to be born by the Vendor.
4. Yearling Heifer Guarantee:
 - a) Yearling Heifers sold as unmated, are sold with the guarantee to breed. The term to breed shall constitute to produce a calf, dead or alive. Should the heifer fail to produce a calf by 31 December 2027, the Vendor shall refund in full the purchase price.
 - b) Where a yearling heifer is sold as unmated, this constitutes a guarantee that the heifer is not in-calf as at the date of sale.
 - c) The use of MOET or IVP reproductive techniques on a female after purchase completely negates the breeding warranty.
5. Any complaint to the Auctioneers must be accompanied by a Veterinary Certificate; word of mouth will not be sufficient proof.

MALE GUARANTEE: The entry of any bull in this catalogue constitutes a guarantee by the seller that the purchase price without interest, expenses, costs or damages shall be refunded if notice of fertility or failure to breed is accompanied by a veterinary certificate and MUST be in the hands of the vendor within four months of delivery. Where a bull is not a breeder the purchase price without expenses will be refunded. The cost of taking delivery and returning the bull to the seller is to be borne by the buyer.

DELIVERY:	All purchases, as is customary, will be at BUYER'S RISK FROM FALL OF THE HAMMER.
PRICING:	All animals are sold in NZ dollars exclusive of GST, unless otherwise stated.
ONLINE PURCHASING:	You should only place a bid if you intend to buy the animal on offer at the price entered. If you place the winning bid where an Agency has agreed to accept the charges for any purchases made by a user in an Auction, charging will be applied to that agency for all lots purchased by the user in that Auction.
INSURANCE:	If Transit or Annual Insurance is required, such cover can be arranged through the Auctioneers on application.
INSTRUCTIONS:	Purchasers are asked to sign dockets before leaving the sale and to leave full and explicit transport instructions.
TRANSFERS:	Vendors are responsible for completion of all transfers. No purchaser shall be entitled to withhold payment for pedigree stock pending execution of delivery by the Vendor of the transfer of the same, registrable in the Stud Book.
COMMISSIONS:	If it is not possible to be present, the Company's Livestock Agents who are thoroughly conversant with the offering will be glad to make selections or bid on specified lots according to instructions.
TERMS:	Payment by 10 days following date of sale, unless otherwise advertised.
OTHER CONDITIONS	The sale is also subject to the general conditions of sale displayed at the sale.
