Conditions of payment and delivery:

- All bulls sold at auction are sold with **14 day** payment terms following delivery.
- All Bulls are required to be freighted by the **1st November**.
- All bulls that are grazed on after sale are required to be insured under our terms and conditions.

Welcome to our 5th Yearling Angus Bull Sale

Another Year has rolled by, Bull sale time is on top of us again. Though it is all over in under an hour people forget the road to sale day started over 2 years ago with the selection of bulls and mating allocations. Sire selection is so important, it sets the trajectory of our herd and yours into the future. I look at selection as about not making mistakes, not following fads and sticking to your program. This year's line I believe is the most consistent lineup that we have presented thus far with plenty of good bulls missing out. Selection of the sale order was difficult a real reflection of the lineup. The Bulls are Thick, Deep and Docile coupled with numbers that reflect the most impactful economic drivers of your herd. Fertility and Calving ease and Moderate growth and Mature Size. Our cow herd will be on display on sale day just before they will be set stocked for calving giving buyers an opportunity to look at our cows. If you want to look at particular females I'll be happy to point them out.

On sale day we will have scanning data available with the catalogue which will assist you in your sale selections. I am a strong believer in yearling bulls and their benefits, that is why we have catalogued our best

possible lineup. With this in mind we also reserve the right to retain two bulls after scanning results and structural assessments are completed. Any withdrawals will be notified prior to the sale. We are committed to producing commercial bulls to the beef and dairy sector that is why we state that all bulls are for commercial use only. If you wish to purchase a bull for transfer this must be stated prior to the sale so that we can ensure the bull is transferable.

As I have said before breeding Angus cattle for clients breeding programs is both an honor and a privilege, and we hope that as we evolve and develop our cattle our clients will reap the benefits from our hard work and dedication. Even in the short time we have been involved in the breeding of Angus cattle, we have met so many good people who have been willing to give up their time, knowledge and valuable resources to help us develop our cattle and to those people we are truly thankful.

I would personally like to acknowledge NZ farmers livestock and PGG Wrightson livestock for running the sale and we look forward to seeing everyone on sale day.

Why Piquet Hill?

Piquet Hill Farms is a sheep and beef seed stock operation based in the Wharepuhunga district in the Northern King Country. Piquet Hill has always been known for producing stock that are adaptable and shift when their genetic potential is expressed. The primary reason for this is the strict adherence to animals being run in rigid cohorts under strict commercial conditions where animals that are unable to thrive are removed and culled. This gives people confidence that our stock will thrive almost anywhere.

For Further Information and Viewing

Vendor: Will Jackson

Mob: 027 739 9939

Our breeding objective

The goal of our breeding operation is to produce efficient, functional and productive Angus genetics that are capable of handling our clients' challenging environments. Through the use of genomics, artificial insemination and embryo transfer we want to produce bulls with trait leading calving ease, birth and maternal traits, coupled with moderate growth, moderate cow size and superior cow efficiency.

Our key drivers

- Mate all heifers as 2-year-olds and require them to rear a calf every year thereafter.
- Focus on maintaining moderate-sized cows. Keeping in mind that the real increase in mature cow weight in the New Zealand cow herd is around 5kg per year, we want to maintain our cows at under 600kg, weaning a calf at around half their body weight.
- Making sure cows are run in strict cohort groups under strict commercial conditions. Animals that are unable to thrive in these conditions must be culled.
- Gather data and select bulls that are tolerant to facial eczema.

-
- Selecting bulls that are trait leaders for calving ease and below breed average for birth weight.
 - Pay special attention to longevity, selectively breed using embryo transfer from older cows who show the ability to continue to breed over 10 years of age.

Our point of difference

The herd at Piquet Hill is one of the highest ranked herds in New Zealand for calving ease, providing bulls well suited to heifer mating, in both the dairy and beef sectors. Most Stud bulls are below breed average for birth and in the top 50% for calving ease, making our bulls reliable and predictable for heifer mating.

The Piquet Hill herd is the only herd in New Zealand that is actively collecting data and selecting bulls that show tolerance to facial eczema (FE). The financial and animal welfare effects of FE in the dairy and beef sectors are huge. Just like the sheep industry, we believe there is substantial gains to be made for farmers in protecting their animals from FE's insidious effects through genetic selection.

Female factory

The environment at our Te Akau property is challenging for breeding stock. It is well known for its long dry Summers and extended periods of FE, which makes Piquet Hill the perfect testing ground for our Angus females. To ensure our cattle perform in the wider industry there has been a strong emphasis on populating the herd with dam lines that are fertile and prolific; cows conceiving annually and rearing a quality calf every year.

Conditions of payment and delivery

- All bulls sold at auction are sold with 14 day payment terms following delivery.
- All Bulls are not required to be freighted till the 1st of November.
- All bulls that are grazed on after sale are required to be insured under our terms and conditions.

CONDITIONS OF SALE

1. The sale will be conducted in accordance with the conditions set down by the Waikato Stock and Station Agents' Association, a copy of which will be posted on the day of sale.
2. Buyers are requested to leave their full address and specific delivery instructions with the booking clerk before leaving the sale.
3. **Conditions of payment and delivery:**
 - All bulls sold at auction are sold with **14 day** payment terms following delivery.
 - All Bulls are required to be freighted by the **1st November**.
 - All bulls that are grazed on after sale are required to be insured under our terms and conditions.
4. No warranty will be given by the Auctioneer with any lot, and as all lots are open for inspection prior to the commencement of the sale, the same are sold with all faults, if any. No compensation shall be made in respect of any fault or error of description of any lots; however, the vendor reserves the right to make compensation to a buyers if it's the vendor's wish.
5. Every lot will be at the risk of the purchaser as from the fall of the hammer.
6. Fertility Guarantee: As per rules and regulations set down by New Zealand Angus Cattle Breeders' Association.
7. Under OSH 1992 Ltd, Beware of Hazards on property and sale venue.

Piquet Hill Bull Guarantees

All bulls guaranteed sound and docile on delivery

All Bulls passed semen test and assessment prior to sale

All Bulls BVD tested negative and double vaccinated

All Bulls come with a three-year structural guarantee

All Bulls TB tested negative

Angus NZ EBVs Explained

EBVs and Selection Indexes remove the effects of non-genetic factors (e.g. feeding regimes, animal age) to provide the best measure of an animals genetic merit.

To ensure the accuracy of EBV and Index data, Angus NZ combine with Angus Australia to create a reference population known as the TransTasman Angus Cattle Evaluation (TACE).

By using TACE – along with visual and structural appraisal – will assist in creating a balanced phenotypical and genotypical breeding outcome.

FOUR STEPS TO SELECTING YOUR NEXT ANGUS NZ SIRE:

1. Consider your individual EBVs of importance
2. Consider other traits of importance (e.g. visual assessment)
3. Identify the **Angus NZ selection** index of most relevance to your breeding programme
4. **Rank animals** using the chosen Selection Index.

Angus NZ publishes the following TACE EBVs and Selection Indexes. Please note that only EBVs from the same TACE analysis can be directly compared.

Growth EBVs	Fertility & Birth EBVs	Carcase EBVs
Birth Weight	Scrotal Size	Carcase Weight
200 Day Growth	Days to Calving	Eye Muscle Area
400 Day Weight	Gestation Length	Rib Fat
600 Day Weight	Calving Ease Direct	Rump Fat
Milk (Maternal)	Calving Ease Daughters	Retail Beef Yield
Mature Cow Weight		Intramuscular Fat

Other EBVs	Selection Indexes
Docility	Self Replacing
Structural Assessment	AngusPure
	Heifer Dairy Terminal
	<i>Details about the Angus Selection indexes can be found at:</i> breedplan.une.edu.au/media/bqjbnnbh/using-new-zealand-angus-selection-indexes.pdf

For more information, including EBV descriptions and how to use them go to: breedplan.une.edu.au/media/dtqpdm34/using-and-understanding-breedplan-ebvs.pdf

Beef + Lamb Genetics have developed a new tool to make it easier to find the best bulls for your farming operation. Using a series of buttons and sliders, you can refine down your breeding criteria. On a click of a button, nProve then generates a list of bulls that best fit that criteria. It's free to use, there's no need to register and there's also helpful tips to get started. Try it out at www.nprove.nz

Purchaser:\$.....

NOTES

FMG Premier Bull Sale Insurance Form

What is FMG Premier Bull Insurance?

On receiving a completed FMG Premier Bull Sale Insurance form from an existing FMG client, FMG provides insurance cover for bulls including theft, death caused by certain accidents, injury, disease, illness or humane destruction and permanent infertility, provided the bull's purchase price does not exceed \$50,000 +GST. Please contact an FMG representative if you are not an FMG client, or you purchased a bull for over \$50,000+GST.

What is the length of cover?

Your specified bull(s) can be insured for up to 12 months on FMG Premier Bull Sale Insurance.

What are the benefits?

✓ <i>Infertility</i>	Cover if your specified bull has to be intentionally slaughtered due to permanent infertility caused by certain accidents, disease, or illness.
✓ <i>Theft or death</i>	Cover for your specified bull for theft or death caused by certain accidents, disease, injury, or illness (including while in transit anywhere in New Zealand).
✓ <i>Vet costs</i>	Cover up to \$500 for treatment of your specified bull to prevent death.

What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.

Apply

Please fill in this form as soon as you have purchased your new bull(s) and hand it to your FMG representative.
This form **MUST** be fully completed for Premier Bull Sale Insurance.

FMG
Advice & Insurance

BULL-PROOF

YOUR ASSETS AGAINST RURAL THEFT.

Theft and burglaries occur more often than you think, and the number of theft claims is increasing.

Every year FMG supports over 1,000 families impacted by theft and burglary. Alarming, 1 in 5 clients at rural addresses have been targeted more than once in the same year!

We think now's the time to put a lock on that trend. We have teamed up with NZ Police to create a Rural Crime Prevention Guide to help prevent theft and burglaries at your rural property – find out more at fmg.co.nz/rural-theft

We're here for the good of the country.
