7th Annual Bull Sale

Welcome everyone,

Another year has rolled over and here we are at our 7th on farm Bull Sale.

You'll see that there is a W in front of the bulls numbers which just means we are up to the letter W or the 23rd year for calving for the Valda - Rose Stud.

As always I have focussed on producing bulls for the Dairy market to make calving hopefully easy and as stress free as possible and using the Dairy merit Sires still growing a profitable Dairy beef calf as the end result.

Again we had a high percentage of bull calves in the 2025 season and hope from our line up you will find the bull or bulls you are looking for today

Cheers, Lance Baker.

HEREFORD NZ EBV's Explained

BREEDPLAN EBVs and selection indexes remove the effects of non-genetic factors (e.g. feeding regimes, animal age) from what is seen and measured to provide the best measure of an animal's genetic merit. BREEDPLAN information should always be used in conjunction with other selection criteria, including visual assessment.

A BEST PRACTICE GUIDE TO SELECTING YOUR NEXT NEW ZEALAND HEREFORD SIRE

A BREEDPLAN Guide to Animal Selection allows you to select the best genetics for your herd in four easy steps:

1. Identify the **New Zealand Hereford selection index** of most relevance to you.
2. **Rank animals** using the chosen selection index.
3. Consider the individual EBVs of importance.
4. Consider other traits of importance (e.g. visual assessment).

The majority of these steps can be undertaken online, allowing you to generate a shortlist of bulls for potential purchase ahead of sale day. The searchable version of this catalogue can be found online at www.herefords.co.nz or www.pivotdesign.co.nz/catalogues.

NEW ZEALAND HEREFORD BREEDPLAN

New Zealand Herefords publishes the following BREEDPLAN EBVs and Selection Indexes. Please note that only EBVs from the same BREEDPLAN analysis can be directly compared.
